	<input checked="" type="checkbox"/> Altered	<input type="checkbox"/> Unaltered	(Check One)
	(Check One)		
	<input type="checkbox"/> Moved <input checked="" type="checkbox"/> Original Site		
DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE			
<p>This Mulberry Street structure appears as a two and one-half story building from the front. It has attached to it, however, a two story section to the rear and a three story section attached to the two story section.</p> <p>The front portion of the structure has a high pitched roof with the entire structure being constructed of running bond brick.</p> <p>The elaborate cornice is of wood. There is wood molding above the first floor also.</p> <p>The main entrance located to the right, is rectangular with transom. To the left, there is a boarded up area of wood which at one time served as a corner entrance to the first floor. The windows on the first floor are four, grouped four-over-four. The sills are wooden and a transom is located above the first floor windows.</p> <p>The three bay structure has second floor shuttered windows with wooden sills and flat arched lintels of brick.</p> <p>Above the cornice, there is a center garret with two-over-two windows.</p> <p>This corner structure has two side entrances facing on Tyson Street. The third section of the house has three stories with three windows on each floor (all six-over-six). The windows have flat arched lintels with wooden sills.</p> <p>The most notable features of the building would include the cornice and the shuttered windows which give a privacy to the structure, not noticeable in the other buildings on the block.</p>
